

THINK YOU'RE INFALLIBLE? DON'T MAKE A CLIENT PAY FOR YOUR MISTAKE

EVEN THE BEST LAWYERS NEED ADEQUATE MALPRACTICE INSURANCE.

You do your best for your clients. They put their trust in you, so you work hard to be worthy of that trust. But no one is infallible. Despite your best efforts, mistakes happen. In a courtroom, even a small oversight can have devastating consequences for your client.

Liability insurance protects your clients as much as it protects you. It gives your clients recourse for getting the justice they deserve when a good case goes bad.

While you do need to comply with Supreme Court amended Rule 756(e)

regarding disclosure of coverage, you don't need the deep pockets of a large firm to afford malpractice insurance. ISBA Mutual has the coverage that's right for you, especially if you work part-time, are a sole practitioner or are part of a small practice.

From liability insurance to help you fulfill your professional responsibility, to professional education to help you avoid critical errors, ISBA is the professional association on your side.

Give your clients, and yourself,
peace of mind - call us at
